Humber-talking has set our priorities, this month we are to:

1. Improve Road Safety – around our school.

As with most other areas, road safety is something in which we can improve upon in our rural communities.

Humberside Police

Serving our communities to make them safer and stronger

Action

We hold regular proactive road safety campaigns with the Highways Authority which include speed enforcement in hot spot locations.

With the return of all children to our primary schools after the Holidays, the Community Team will be conducting patrols around the schools making sure that the roads are safe for everyone especial for our young members outside the schools' gates.

Seasonal Trend Calendar activities are:

1. Tackling Vehicle Crime

This period is always one of our busiest, however, we would like to offer reassurance to residents and a stark reminder to those intent of causing harm or committing offences, that we are out in force and ready to act against anyone involved in vehicle crime.

UPDATE - During January, reports vehicle crime fell to two reports..

Action - aims to:

- reduce vehicle related crime.
- raise awareness within the local community about vehicle security.
- provide crime prevention advice to community members.

Intended outcome:

The intended outcomes are to:

- reduce the number of recorded crimes related to Theft from Motor Vehicles (TFMV)
- enhance security measures to protect the registered keeper.

2. Preventing Residential dwelling Burglaries.

Humberside Police

Serving our communities to make them safer and stronger

During the winter months, it is usual for us to see crimes such as burglary and theft rise, particularly if houses and vehicles are unattended.

Burglars are often opportunistic thieves who prey on houses, garages, sheds and outbuildings. They seek out any opening that they can take advantage of, specifically doors and windows that are left open or unlocked or are easy to force.

Please follow a security routine and check windows, doors and vehicles are secure before settling down for the evening. Visit our website for further advice www.humberside.police.uk

Action

During the winter months, members of the Holderness Policing Team will continue be out to Minimise crime and ASB.

Maximise crime reduction opportunities by targeting offenders and providing advice to homes and businesses. Minimise the risk of becoming a victim of crime through high visibility patrolling.

How you can help

Your local Neighbourhood Policing Team appreciates the importance of being in the right place, at the right time, for the right reasons to reassure the public, improve public confidence and reduce crime and anti-social behaviour in the area in which we all live and work.

We encourage all residents to call and report any issues where they live so that we can deal with any issues and step up our patrols in that area.

If you feel that there are other issues affecting you or your local community that should be given priority, please inform your local councillors or your Neighbourhood Policing Team.

- Refer people to receive the regular friendship calls.

Fraud.

[Report Fraud](#) is now live and will now become the national reporting centre for cybercrime and fraud, replacing **Action Fraud**.

Cybercrime and fraud are now the most common crime in the UK, accounting for around 50 per cent of all offences and costing the economy billions of pounds each year.

Report Fraud has been created to meet this challenge by providing a single, national gateway for reporting and intelligence that will strengthen the collective response of policing, government and the private sector.

It brings together the reporting of both cybercrime and fraud in one place for the first time, making it quicker, clearer and more supportive for people and businesses to come forward.

what3words

The 'what3words' system simplifies how emergency services can accurately pinpoint locations when searching for scenes and missing people.

When calling 999 in an emergency people can often struggle to describe their location. Using 'what3words' helps them say exactly where they are, saving precious response time.

There is also a 'what3words' app, which if downloaded, means the caller can provide their location instantly. The app works offline, so it's ideal for use in rural areas with unreliable data connection.

How does it work? It's really easy, you just download the app and then you can go on to it and search for any location and it will give you a three word address for that location.

If you're ever in a situation where you need help from the emergency services to get to you quickly you can then go on the app, find your 3 word address and give that to the call handler and they can look up exactly where you are.

The address will apply to a 3m square location so it means we can pinpoint exactly where someone is and send someone there. For more information visit www.knowexactlywhere.com

Love Your Appliance. Register and Relax!

Humberside Fire & Rescue are supporting the national Register My Appliance campaign to help keep households safe.

Registering your appliances is quick, free and helps keep you safe. It means manufacturers can contact you if there's ever a safety notice or product recall.

Whether your appliance is new, bought in the January sales, second-hand, or already in use, registering it is a smart step for peace of mind.

Humberside Police

Serving our communities to make them safer and stronger

Sarah Wilkinson, Head of Prevention said: "It's vital to ensure that these machines we rely on everyday are registered. It's quick as well as absolutely free and means you will be the first to know if a safety repair is ever needed. Just a few minutes well spent will ensure you can relax, enjoy the machine's perks and even possibly extend its lifespan without sacrificing safety."

Recalls on home appliances are rare but issues with the equipment can develop over time and a simple, free in-home adjustment by a qualified engineer can ensure a longer and safer life for machines. But, unlike our cars for which logging details is mandatory, a vast number of these valuable possessions are still untraceable because they are unregistered.

AMDEA's [Register My Appliance](#) portal provides a quick and easy remedy offering online access to more than 70 leading brands, with most accepting registration of both new and older appliances.

Top Safety Tips for Your Home

- Check your appliances regularly for wear and tear, frayed cables, or loose plugs.
- Never overload sockets - use one plug per socket to reduce fire risk.
- Switch off appliances when not in use, especially overnight or when you're out.
- Keep ventilation clear around fridges, freezers and tumble dryers to prevent overheating.
- Follow manufacturer instructions for installation and maintenance.

Thank you for helping us keep homes safe.

Darren
