Serving our communities to make them safer and stronger

*Humber-talking has set our priorities, this month we are to:*

## 1. Preventing Theft

We are aware of concerns regarding Thefts in the ward area.

### **Action:**

We have been working hard to provide support and guidance to prevent further offences whether it occurs on the forecourt or the garden, whilst completing enquiries to identify and tackle those responsible.

We will be completing regular patrols in the areas of concern.

If anybody has information about those responsible for these types of offences, then please contact us through the 101 number or alternatively, by calling the independent charity CrimeStoppers (0800 555 111).

## 2. Promoting Lifestyle

Lifestyle is ready to be launched in your area.

**Action:** All Neighbourhood Policing Teams have received their Lifestyle packs with promotional materials and their PowerPoint (and video) to be delivered in schools and youth centres.

**Lifestyle** is our longest-running youth engagement event, inspiring young people since 1989 to make a positive impact in their communities through innovative, fun-filled, and inspiring projects during their summer holidays. Each year, we witness incredible dedication from young individuals who strive to improve their neighbourhoods, showcasing exceptional organization and teamwork to achieve their Lifestyle goals.

**Lifestyle** is open to 10-16 year olds, either in small teams of 2-5 members or as larger youth teams representing youth clubs. This programme offers Humberside's young people the chance to fill their summer with enjoyable activities that benefit their communities. You can find out more about Lifestyle on our new dedicated website: [Humberside Police Lifestyle – Making a Difference](#), where registration will open soon.

## How you can help

Your local Neighbourhood Policing Team appreciates the importance of being in the right place, at the right time, for the right reasons to reassure the public, improve public confidence and reduce crime and anti-social behaviour in the area in which we all live and work.

We encourage all residents to call and report any issues where they live so that we can deal with any issues and step up our patrols in that area.

If you feel that there are other issues affecting you or your local community that should be given priority, please inform your local councillors or your Neighbourhood Policing Team.

## 3. Road Safety

Improving safety of our roads across Mid Holderness

You've no idea what's around the corner so slow down and give yourself time to react.

Be ready to meet cyclists and slow-moving vehicles when you least expect them on rural roads.

If you're out for a country drive, look out for other road users. Don't forget to "LOOK, LOOK & LOOK AGAIN" for those on two wheels.

Remember to share the road and we ask drivers to look out for Walkers, Cyclists and Horse Riders – Give them plenty of room

This year's Bike Week aims to encourage as many people as possible to get out and enjoy their community by bike.

Action:

# Humberside Police

Serving our communities to make them safer and stronger

We are taking part in the national 2wheel campaign, launching today (Monday, 2 June), reinforcing the message behind our One Second campaign, highlighting the devastating impact of reckless and distracted driving.

Over the past year, 32 lives have been lost on our roads, with many more suffering life-changing injuries and in the last month alone, two motorists have lost their lives riding high powered motorcyclists. Our officers have been tackling dangerous driving behaviour, providing education, and enforcing road safety laws to protect all road users, whether behind the wheel or on two wheels.

The 2wheel campaign is dedicated to improving the safety of motorcyclists and cyclists through visible policing, enforcement of road traffic regulations, and community engagement.

Our One Second campaign raises awareness of the irreversible consequences of distracted, reckless, or impaired driving through real-life testimonies from families affected by fatal collisions.

We are also supporting Operation Yokohama and Operation Achilles, which focus on motorcycle safety, collision reduction, and addressing anti-social riding through targeted initiatives and engagement. Through high-visibility policing, education, and targeted enforcement, we are working across our force area to encourage better decision-making on the roads, reminding all drivers and riders that one second of distraction, one reckless choice, can take a life.

Members of the public are encouraged to report dangerous driving to 101 or 999 in emergencies. You can also submit video evidence via Op Snap, helping to hold reckless drivers and riders accountable for their actions.

## CYCLE SECURITY

- You should invest in quality locks. As a guide, spend at least 10% of the value of the bike. Most cycles stolen in Humberside are locked with cheap locks, which have been easily broken or cut.

There are three main type of cycle lock.

- D locks are harder to cut, but only if the metal is hardened steel.
- Chains need to be substantial, thick and made from hardened steel to provide reasonable protection.
- Wire locks and wire loops are lighter and offer less security. Braided wire is by far the strongest due to being harder to cut. Beware of thin wire locks covered by thick plastic sheaths to make them appear strong.
- You should look for locks which have been tested against attack. Check out [www.soldsecure.com](http://www.soldsecure.com) for certified locks.
